

The Second Session of the ❁ ❁

YPSILANTI ❁ ❁ ❁

Summer ❁ School,

For Teachers and those who expect to teach,

. . . OPENS . . .

Monday, June 28, 1897,

—AT—

Cleary College,

and continues for Six Weeks.

TUITION, \$6.

Instruction will be given as follows:

1. In all Subjects leading to 3d, 2d, and 1st Grade Certificates.
2. In the Regular Work of the College.
3. In all Subjects leading to Credits in the

Michigan State Normal School.

Normal Teachers will be employed, and **Credits accepted** in work properly done. Credits are accepted at the Normal from no other summer school in the state—a better recommendation could not be desired as to the thoroughness of our work.

Kindly Write Us.

We should like to hear from those desiring credits in the Normal School, as early as June 1st to 10th, if convenient to do so, stating what subjects they wish to pursue, and arrangements will be made to accommodate them. We should also be pleased to hear from those intending to enter for the Certificate courses or Special work, and any additional information necessary will be given.

Please mention the county in which you teach, and our influence will be used to your advantage with the School Officers,

P. R. Cleary, President,

Ypsilanti, Michigan.

Courses Offered.

For Certificates.

Instruction will be given as follows:

- 1—In all subjects necessary to a 3d Grade Certificate.
- 2—In all subjects necessary to a 2d Grade Certificate.
- 3—In all subjects necessary to a 1st Grade Certificate.
- 4—In all subjects necessary to a State Certificate.

The class work will be assigned by topics, and students may use any text they may have with them.

There will be beginning, advanced, and review classes, and all possible assistance will be given those desiring to take examinations and to do better work in their schools.

A series of about twenty-five lectures will be given on Methods of Teaching, Prof. Hoyt, of the Normal Training School, giving ten, in addition to the regular class work.

Teachers will be permitted to pursue such subjects as will be of most benefit to them, and to OBSERVE in other classes of the school. If any of the subjects mentioned under "Special" and not included in the above courses are desired, they may be taken without extra charge.

Certificates of attendance and standing will be granted those desiring them.

For Normal Credits.

Instruction will be given in the following subjects, by Normal Teachers, and credits accepted in work properly done.

- 1—Mathematics,
- 2—English,
- 3—History,
- 4—Languages,
- 5—Sciences,
- 6—Geography,
- 7—Drawing,
- 8—Blackboard Sketching,
- 9—Bookkeeping,
- 10—Penmanship.

For explanations of these courses see Normal Catalog, a copy of which will be mailed you by the Clerk of the Normal School on application.

Such text-books as are used in the Normal will be used here.

This will be an excellent opportunity for teachers of the state who desire advanced credits in the Normal School, and for others who wish to pass off certain subjects before the opening of the next school year.

SPECIAL.

A special course will be given in the following subjects, designed for those who do not care to work for certificates or credits; but if any others desire one or more of these subjects, they may take them without extra charge.

- 1—Methods in Music,
- 2—Blackboard Sketching,
- 3—Drawing,
- 4—Kindergarten,
- 5—School Law,
- 6—Commercial Law,

- 7—Child Study,
- 8—Nature Study,
- 9—Shorthand,
- 10—Bookkeeping,
- 11—Correspondence,
- 12—Methods of Teaching.

General Information.

LIBRARY.

The Normal Library will be open to students of the Summer School from 10 to 4 each day. The College Reading Room contains the principal Daily Papers, Educational Papers and Magazines, and books of reference, including Dictionaries, Encyclopedias, etc.

LABORATORY FACILITIES.

Ample Laboratory facilities will be provided those wishing to pursue the Sciences.

LIVING EXPENSES.

Good board and furnished room, in private family, can be obtained at from \$2 to \$2.50 per week, depending upon the rooming accommodations. Students desiring to board themselves can do so at an expense not exceeding \$1.50 per week, including furnished room.

TUITION.

The tuition for the six weeks will be \$6. This will entitle the student to the advantages of the entire school, including the pedagogical lectures. No discount will be made to any who enter late in the course.

WHEN TO ENTER.

It is desirable that all who can enter the first day of the term, especially those intending to work for credits; but students will be received at any time, and all possible assistance given them.

BOOKS AND STATIONERY.

Books and stationery necessary for the course may be obtained at the College at prices very little above cost.

Blackboard Sketching.

No subject in the course is of more benefit to teachers than Blackboard Sketching. The ability to illustrate freely and quickly upon the board the lessons in Geography, History, Botany, Zoology, Language and Literature, is being more and widely recognized as a part of the equipment of an expert teacher, and the course which we offer will give teachers that ability. It will be under the direction of an expert teacher from the Normal, and all who wish may take it up in connection with other work. Every grade teacher in the state should take it.

Penmanship.

This subject will be made exceedingly interesting and helpful to teachers. It will be presented as a MEANS OF EDUCATION, rather than as a mechanical art. Children will be brought into the class room for illustration and practice. Instruction will be given on paper and blackboard in the vertical style, but the slant may be used if preferred.

Tell Your Friends.

If Superintendents and Principals who receive these Circulars will pass them to their Grade teachers, and Rural teachers to their Eighth Grade pupils and others who may be interested, or send us their names, we shall greatly appreciate the favor, and hold ourselves in readiness to reciprocate at any time. No teacher need hesitate to recommend our School to his fellow teachers and friends; the fact that we shall employ Normal Teachers is of itself a sufficient guarantee that our work will be of the highest order.

The Regular Departments of the College.

In addition to the above courses, the Regular Departments of the College will be in session as usual, and any who may desire to enter for a Regular Course or Special Studies may do so at this time just as well as at any other. These departments will also be open to students of the Summer School. The Courses include

Business Course.	Bookkeeping,
	Penmanship,
	Arithmetic,
	Grammar,
	Correspondence,
	Commercial Law,
	Spelling,
	Business Forms,
	Business Practice,
	Business Customs.
Shorthand Course.	Shorthand,
	Typewriting,
	Penmanship,
	Arithmetic,
	Bookkeeping,
	Grammar,
	Correspondence,
	Spelling,
	Business Forms,
	Office Practice.

For an explanation of these courses, the work covered, the time required to finish, the opportunity for obtaining positions, and other information regarding the College, see Catalog, a copy of which will be mailed on application to the President.

The Best is the Cheapest.

Our Shorthand Course now includes more than half of our Business Course, enough to enable a student to keep any ordinary set of books. There has been an unusually large demand for students of this Course the past six months. Scarcely has there been a time during this period when we have had students waiting for positions. This, together with the thoroughness of our work, is an important fact to be considered by those contemplating entering a school of this kind. The best is decidedly the cheapest, and THE CLEARY stands at the head.

Please Write for New Catalog.

P. R. Cleary, President,

Ypsilanti, Michigan.
